Downloaded From: https://textbooksall.blogspot.com/

FACTORS INFLUENCING THE DISTRIBUTION OF TEMPERATURE

(First Term model) (SSLC Model)

LATITUDE

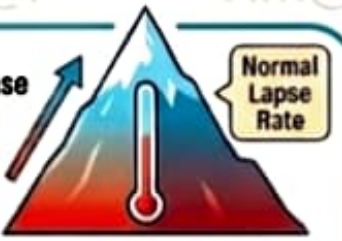

Very high temperature is experienced along the equatorial regions where the incidence of sun's rays is almost vertical.
Thus the temperature gradually decreases towards both the poles.
Torrid zones between 0° & 23 1/2° N and S.
Temperate zone between 23 1/2° & 66 1/2° N and S.
Frigid zone between 66 1/2° & 90° N and S.
These Zones are formed basis of availability of Temperature.

ALTITUDE (SCERT Model)

Atmospheric temperature decreases with increase in altitude.
Atmospheric temperature decreases at the rate of 6.4°C per kilometre of altitude.
The phenomenon is termed as Normal Lapse Rate.

DIFFERENTIAL HEATING OF LAND AND SEA

Land gets heated and cooled quickly.
Thus the land areas experience higher summer temperature and lower winter temperature.

Quick-get heating
Slow-heating quickly cooling
Quickly cooling slowly cooling

DISTANCE FROM THE SEA (SCERT Model)

The winds blowing from land to sea and vice versa help to moderate the temperature along coastal areas.

OCEAN CURRENTS

The temperature along the coastal regions is raised or lowered by the warm currents and cold currents respectively as they pass by.
North Atlantic Current & Labrador cold current saves from severe cold from Western European countries and Canada respectively.

TOPOGRAPHY (RELIEF)

Depending on the topography, the availability of sunlight differs from one piace to another.
Due to this difference, the mountain slopes facing the sun experience higher temperature and opposite slopes experience lower temperature.

GLOBAL GEOGRAPHY

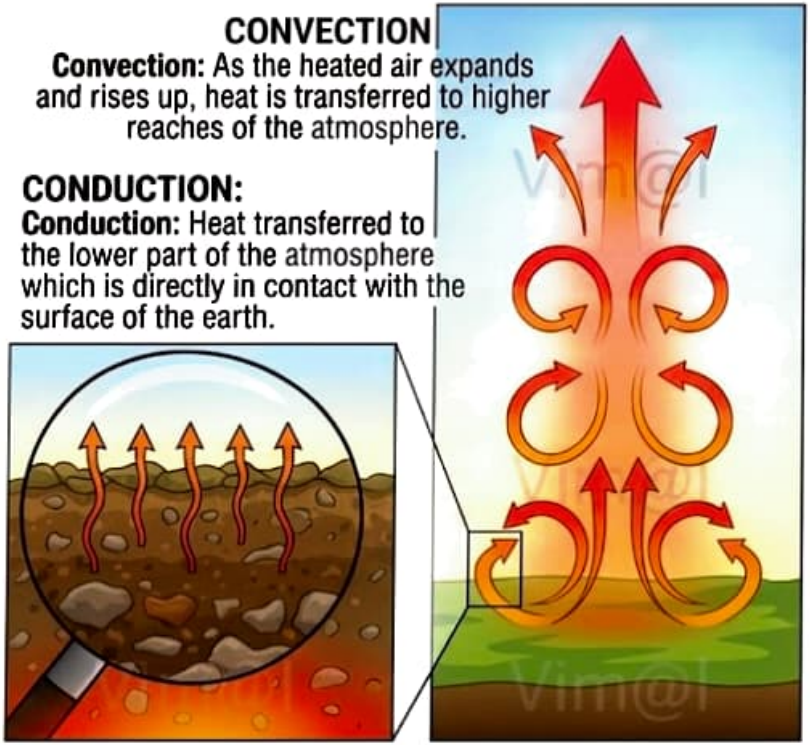

MECHANISMS OF HEAT TRANSFER IN THE ATMOSPHERE

CONVECTION

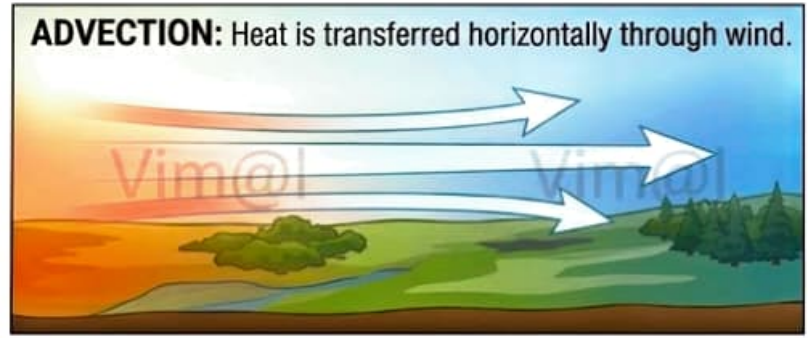

Convection: As the heated air expands and rises up, heat is transferred to higher reaches of the atmosphere.

CONDUCTION:

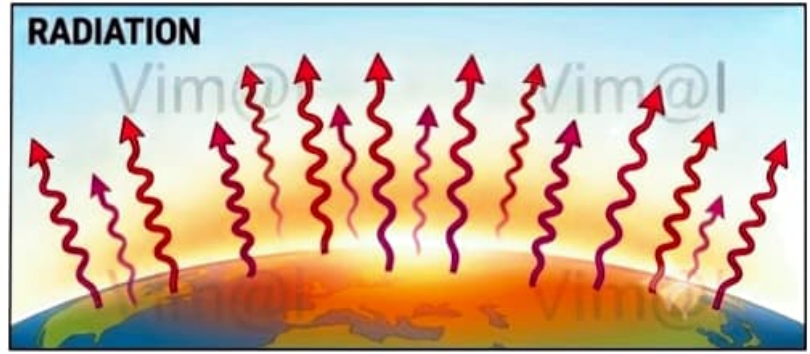

Conduction: Heat transferred to the lower part of the atmosphere which is directly in contact with the surface of the earth.

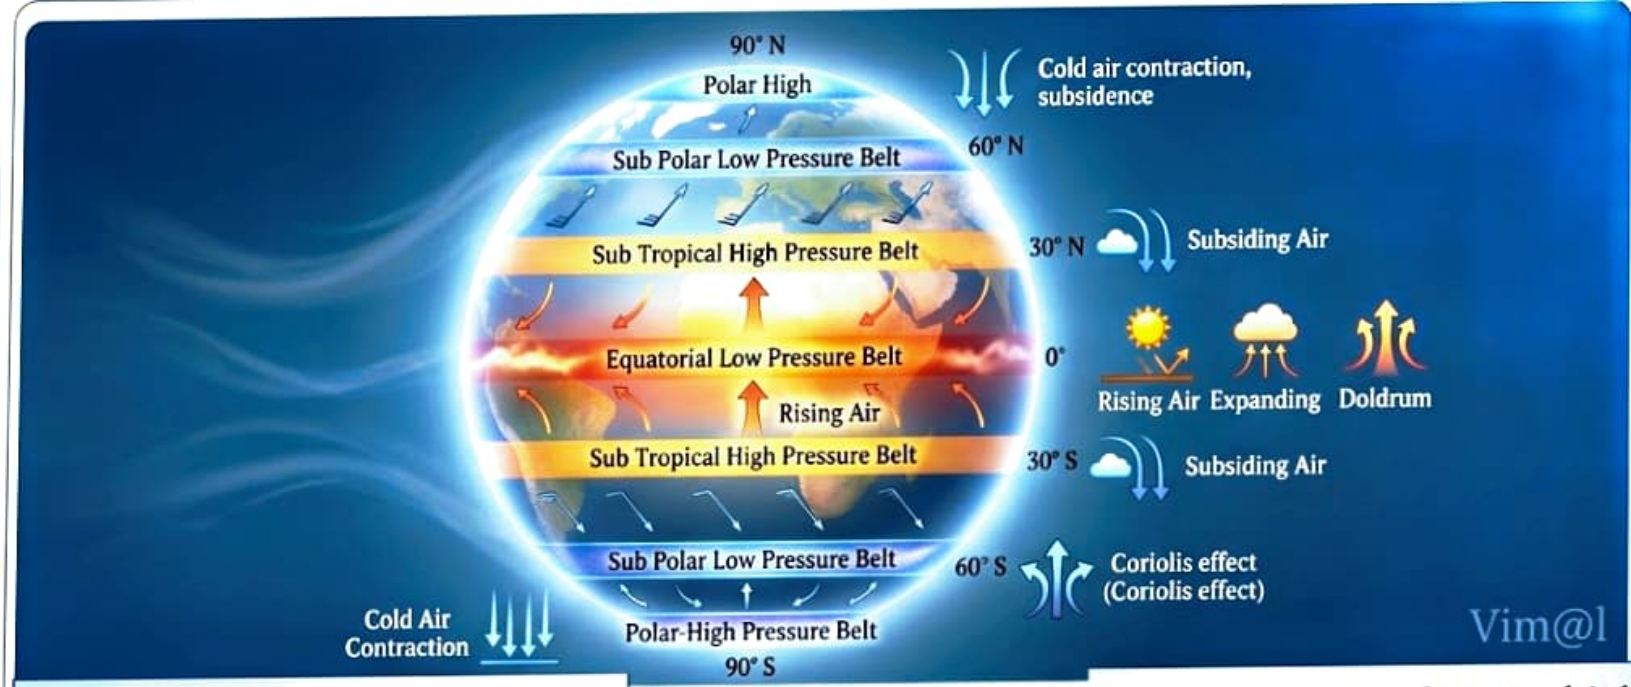

Conduction: Heat transferred to the lower part of the atmosphere which is directly in contact with the surface of the earth.

Advection: Heat is transferred horizontally through wind.

Radiation: Emission of energy in the form of long waves after the earth's surface gets heated up.

Polar High Low Pressure Belt	$ The expansion and rising up of air due to high temperature in the equatorial region is the cause for the formation of Equatorial Low Pressure Belt.
Sub Polar Low Pressure Belts	$ Being the windless zone, This pressure belt is also known as Doldrum.
Sub Tropical High Pressure Belts 	$ Situated to the 30° North and South latitudes. $ The rising warm air along the equatorial region moves as upper air winds which gradually cool and subside at the Sub Tropical zone.
Sub Polar Low Pressure Belts	$ Situated to the 60° North South latitudes. $ The colder air is throwing up along these regions due to the rotation of the earth. Vim@l
Polar High Pressure Belts	$ Polar High Pressure Belts are formed as a result of the contraction and subsidence of cold air along the poles.

19. Give a brief account on Permanent Winds (First Term Exam) (SSLC 2026)

* The winds blowing *constantly* over a particular direction throughout the year.
* These winds are also known as prevailing winds and planetary winds.
* These winds blow between global pressure belts.Major permanent winds are,

Definition

Winds blowing ***constantly*** in one direction all year.

Alias

Also called Prevailing Winds and Planetary Winds.

Location

Winds

Winds blow between ***global pressure belts.***

Trade Winds	**Origin** > From Sub-tropical High to Equatorial Low pressure belt.	**Direction** > Due to **Coriolis force:** NE in Northern Hemisphere, SE in Southern Hemisphere.
Westerlies	**Origin** > From Sub-tropical High to Sub-polar Low pressure belt.	**Characteristics** > Stronger in Southern Hemisphere due to ocean expanse.
Polar Winds	**Origin** > Polar High pressure belt to Sub-polar Low pressure belt.	

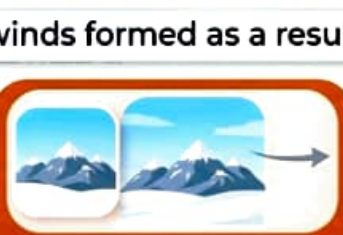

Downloaded From: https://textbooksall.blogspot.com/

24. UNDERSTANDING LOCAL WINDS (First Term model)

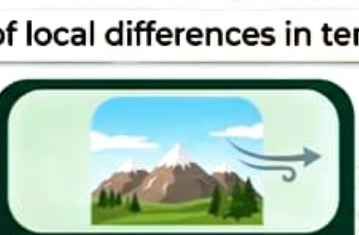

Local winds are winds formed as a result of local differences in temperatures and pressure.

- **Wind:** Loo
- **Location:** North Indian plains
- **Nature:** Hot wind

- **Wind:** Chinook
- **Location:** Slopes of Rocky mountain in North America
- **Nature:** Dry Hot wind

- **Wind:** Foehn
- **Location:** Slopes of Alps Mountain in Europe
- **Nature:** Dry Hot wind

- **Wind:** Harmattan
- **Location:** Sahara Desert in Africa
- **Nature:** Relief to Intense heat

Influenced by: Pressure

28. What do you mean by Condensation? **(First Term model)**

The process by which water vapour in the air is changed into liquid water. The atmospheric moisture is visible only when the water vapour condenses to form tiny droplets of water. Forms of Condensation are Dew, Frost, Mist and Fog , Cloud

UNDERSTANDING CONDENSATION: Forms and Processes

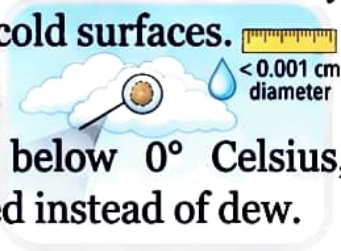

Dew

$ During the night, as the earth's surface cools down, the atmosphere close to the earth's surface also cools.

$ The water vapour condenses to form tiny droplets of water which may cling on to the grass tips, leaf blades as well as other cold surfaces.

$ These are called **Dew**.

$ Whenever the atmospheric temperature falls below 0° Celsius, especially during nights, tiny crystals of ice are formed instead of dew.

Mist and Fog

$ Fog or mist is formed as a result of condensation of water vapour around tiny dust particles in the lower atmosphere.

$ Fog and mist can be distinguished based on the range of visibility through them.

Clouds

$ Clouds are formed as a result of condensation around the tiny dust particles in the atmosphere.

$ The water droplets thus formed are less than 0.001 cm in diameter. This is why, they remain suspended in the atmosphere

Vim@l

Tabulate the different types of clouds

Cirrus	❖ Thin, delicate, feather-like very high altitudes clouds. 
Stratus	❖ Thick-layered clouds formed in the lower atmosphere. 
Cumulus	❖ Cotton wool-like clouds formed as a result of intense convection currents. ❖ These clouds have great vertical development. 
Nimbus	❖ Dark rain-bearing clouds, lower part of the atmosphere. ❖ The thick concentration of water droplets which does not allow light to penetrate through them. 

30. What is Precipitation?

* As a result of condensation in clouds, the size of water droplets increases.

* As the size of water droplets grows beyond the limit of resistance against gravity, water droplets will be released from the clouds and may fall on earth in various forms.

31. Tabulate Forms of precipitation:-

$ Rainfall $ Snow fall $ Hailstones

Snowfall	Hailstones
# Temperature falls below 0° Celsius in cold	# The water droplets released from the

31. Tabulate Forms of precipitation:-

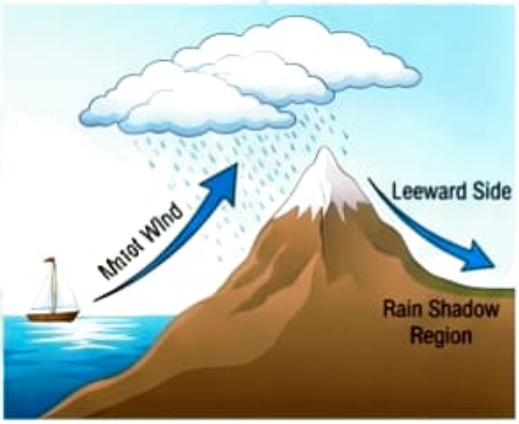

$ Rainfall $ Snow fall $ Hailstones

Snowfall	Hailstones
 # Temperature falls below 0° Celsius in cold climatic regions as well as in temperate regions during winter. # Precipitation occurs in the form of tiny crystals of ice.	 # The water droplets released from the clouds are subjected to repeated condensation at different levels of atmosphere. # It reaches the earth in the form layered ice pellets.

31. What are the types of Rainfall **(SCERT Model)**

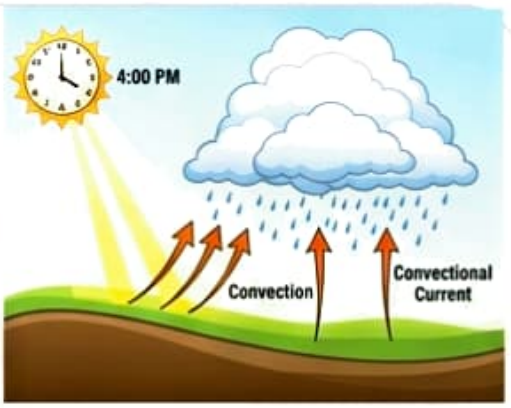

Orographic rainfall or Relief rainfall

$ Moisture-laden winds from the sea, enter the land and will be raised along the mountain slopes.
$ This leads to condensation and formation of rain clouds along the windward slopes of mountains.
$ While the windward slopes of mountains get more rainfall, the descending dry air makes the leeward side rainless.
$ Such regions are called Rain Shadow Regions.

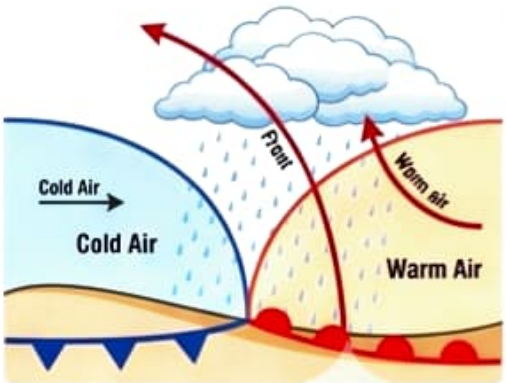

Convectional Rainfall

$ Rainfall occurring in afternoon during summer season through Convection process.
$ As the convectional rainfall commonly occurs during afternoons, it is also called 4 O'Clock rains.

Cyclonic Rainfall (Second Term Exam)

$ In cyclonic systems where warm and cold air meet, the warm air will be raised up to cause condensation and rainfall.
$ This type of rainfall is called Cyclonic Rainfall.
$ As the boundary lines between warm and cold air meet are known as "fronts".
$ This type of rainfall are also called "Frontal Rainfall".

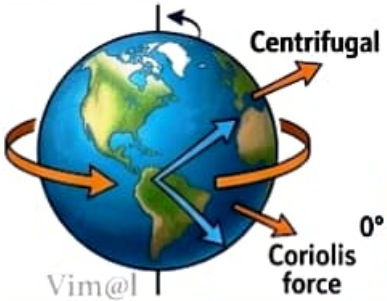

16.How global pressure belts are formed? Explain **(First Term Exam) (First Term model)**

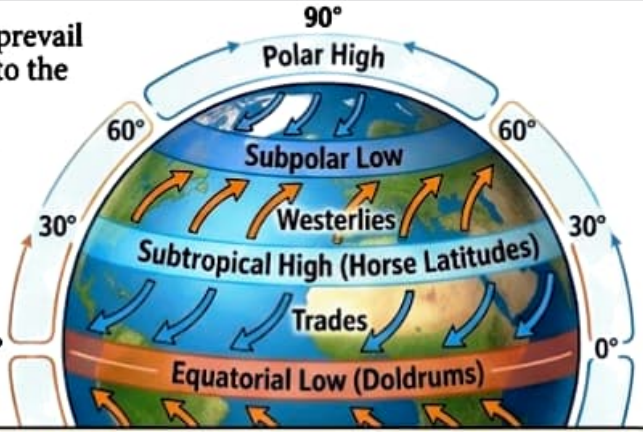

Temperature is inversely proportional to pressure.

Lowest atmospheric pressure experienced in equatorial region, highest in polar regions.

Distinct pressure conditions prevail at certain specific zones due to the influence of rotation.

< Temperature is inversely proportional to pressure.

< Thus the lowest atmospheric pressure might be experienced in the equatorial region and the highest might be in the polar regions.

< The pressure should therefore increase from the equator towards the poles.

< But actually this is not the case.

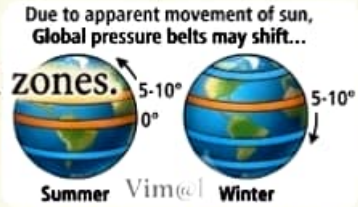

< Distinct pressure conditions prevail at certain specific zones due to the influence of the rotation of the earth.

< Different pressure belts are formed along certain specific latitudinal zones.

< The atmospheric pressure is uniform between certain latitudes.

< These are called Global Pressure Belts.

< Due to the apparent movement of the sun ,Global pressure belts may shift to about 5° to 10° northwards during summer season and shift southward during winter season.

Vim@l

DAILY MEAN TEMPERATURE

8. Define Daily mean temperature (SCERT Model)

* The average temperature of a day is called as Daily mean temperature.

$$\text{Daily mean temperature} = \frac{\text{Maximum temperature} + \text{Minimum temperature}}{2}$$

Vim@l

DIURNAL RANGE OF TEMPERATURE

9. What is meant by the diurnal range of temperature? Calculate the diurnal range of temperature and the mean daily temperature if the maximum temperature is 32°C and the minimum temperature is 17°C recorded at a place -15 °c (SCERT Model)

Diurnal Range Definition:

Calculation:

- **Diurnal Range = 24.5°C**
- The mean daily temperature calculation would be (32+17)/2 = 24.5°C

City Comparison:

Thiruvananthapuram

the minimum temperature is 17°C recorded at a place -15 °C (SCERT Model)

Diurnal Range- 24.5°C

Which city experiences a lower diurnal range of temperature: Thiruvananthapuram or Kanpur? Why? (SCERT Model)

Thiruvananthapuram; Thiruvananthapuram experiences less diurnal range of temperature because it is located close to the sea. But Kanpur is located far from the ocean. Since it is not close to the ocean the diurnal range of temperature will be greater.

Thiruvananthapuram

Kanpur

The Renaissance in Europe first began in Italy/Cities in Italy were different from the rest in Europe.Give reasons (First Term Model) (SSLC Pre Model)
Vim@l
* They were more independent, wealthy, and dynamic
* Traders in these cities were well aware about banking and insurance
* Some of them had expertise in technical matters of trade, such as bookkeeping
* Many of them had become extremely wealthy through trade

Vim@l Notes

The Renaissance in Europe first began in Italy/Cities in Italy were different from rest in Europe.Give reasons (First Term Model) (SSLC Pre Model)

* They were more independent, wealthy, and dynamic
* Traders in these cities were well aware about banking and insurance
* Some of them had expertise in technical matters of trade, such as bookkeeping
* Many of them had become extremely wealthy through trade

Question No. 7: The Renaissance in Europe first began in Italy / Cities in Italy were different from the rest in Europe. Give reasons.

(First Term Model)
(SSLC Pre Model)

They were more independent, wealthy, and dynamic

Traders in these cities were well aware about banking and insurance

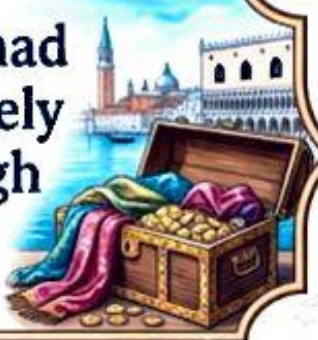

Some of them had expertise in technical matters of trade, such as bookkeeping

Many of them had become extremely wealthy through trade

Vim@l

Question No. 17

17.Discuss the impact brought about by the outbreak of the Bubonic Plague in the mid-14th century in various fields in Europe?

(First Term Exam)

(Class Notes)

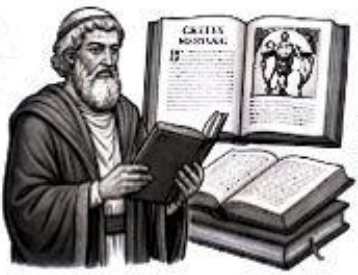

* Declined medieval feudalism.
* It was heavily depended on the agricultural sector.

* When ancient medicines failed People began to explore the medical sciences of ancient Greece and Rome.

* Human beings to contemplate the fleeting nature of life, seek wellness, and focus on their own well-being.

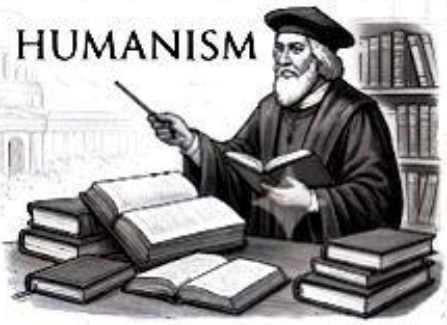

* Emergence of humanism.
* Emergence of middle class.

Vim@l

The Impact of the Conquest of Constantinople on Italian Intellectual History

Assess the impact of the conquest of Constantinople by the Turks on the intellectual landscape of Italy. (First Term Model)

- The Ottoman conquest of Constantinople in 1453 had a profound and transformative impact on the intellectual landscape of Italy.

- Byzantine scholars and intellectuals migrated to Italy.

- They brought invaluable classical Greek manuscripts .

- It facilitated the study of classical philosophy, literature, and science.

- Wealth and political freedom created a fertile ground for artistic innovation and cultural experimentation.

- Novel ideas began to emerge in the cultural and intellectual spheres.

Q.2 Or Compare the painting **styles** of Middle Ages and Renaissance period **(Second Term Exam)**

Features of Renaissance Paintings	Paintings In Middle Age
@ Landscape. @ The use of colour to illustrate light and spatial depth. @ Realistic depiction of the human body. @ The use of oil paint @ Portraits. @ Accuracy	@ Medieval paintings emphasized spiritual elements such as angels and heavenly realms.

Downloaded From: https://textbooksall.blogspot.com/

Q.2. Or What is Scholasticism? Analyse the shift from Scholasticism to the concept of Humanism. **(First Term Exam)**

Scholasticism	Humanism
• Scholasticism is a Philo Philosophy, which was deeply rooted in Christian theology. • It encouraged knowledge and research. • It prioritised the divine and the afterlife.	• Humanism emerged as a departure from Christian theology. • Emphasis on human experience, worldly life and rational inquiry. • It encourages the uniqueness, emotions, capabilities, literary expression, and communication skills

7. "Renaissance is the shift from the divine centered outlook to the human centered outlook. Substantiate the statement by evaluating the renaissance painting".

(SCERT Model)

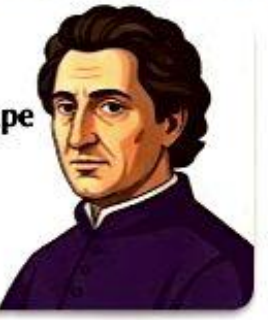

Giotto

* Human figures engaging in everyday life experiences

Masaccio

*Wall paintings-Round in shape
*Protrude from the surface.
*Showcased human figures engaging in everyday life experiences.

Leonardo da Vinci

*The Last Supper and Mona Lisa.
*'Last Supper,' emotions like surprise, fear and guilt of Christ's disciples are vividly etched as Christ reveals that one of them betray him.
*The enigmatic expressions of Mona Lisa conceals many unanswered questions

Michelangelo

*He paintings done on the ceiling of the Sistine Chapel .
*The Last Judgment, predominantly feature powerful and graceful human forms.

Titian and Raphael

*Raphael portrayed humans as wise, moderate, and dignified. In their paintings, beauty and ideas were given equal importance.

Vim@l

1. The most Renaissance writers wrote in regional languages. Analyse the development of renaissance literature in various regional language (SSLC 2026)

Literature in Renaissance period (First Term Exam)

Dante The Divine Comedy

Imagined pilgrimage through Hell, Purgatory and Paradise. Reflects human emotions, patriotism, fascination for natural phenomena. Renaissance values like Crticism, rational thinking, humanism are reflected in it.

Petrarch

Sonnets addressing Laura

Leading exponent of humanism. His sonnets reflected a bold and unique style

Boccaccio

Decameron

Niccolò Machiavelli Michaveli

The Prince

Ruler must maintain the authority and security of the state. He should remain impartial and avoid showing favouritism to specific groups among the subject

Cassandra Fedele (First Term Model)

She earned a name through her and speeches. Emphasised the importance of providing higher education to women

Dante, Petrarch, Boccaccio, Niccolò Machiavelli wrote in Italian language (regional language).

Downloaded From: https://textbooksall.blogspot.com/

1.Complete the table renaissance writers in the other countries (First Term Model) SSLC 2026

Writers	Works	Country
 Erasmus	 In Praise of folly	 Netherland
 Geoffrey Chaucer	 Canterbury tales	 England
 Thomas More	 Utopia	 England
 Miguel de Cervantes	 Don Quixote	 Spain
 Francois abelais	 Gargantua and Pantagruel	 France

1. Elucidate the role of Renaissance in making historiography scientific ?

(SCERT Model)(First Term Exam)

* During the Middle Ages, historical events were divinely ordained and the course of history was governed by supernatural powers.

* This perspective lost its relevance .
* Instead, human-centered explanations and interpretations gained recognition.

* Importance of archaeological evidence and relics.

* Critical thinking gained significance in history.
* Scientific enquiry and studies replaced stories and myths.

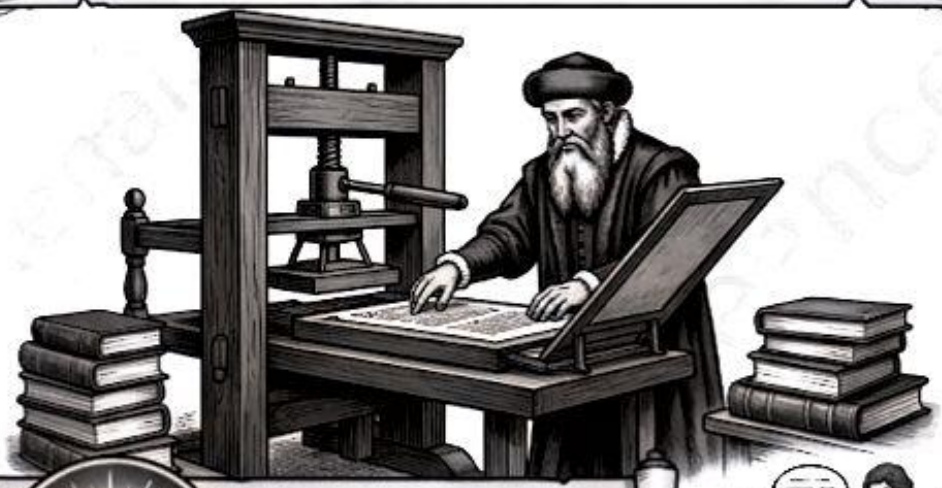

Niccolò Machiavelli

* Machiavelli contributed much for historiography.

Vim@l

Downloaded From: https://textbooksall.blogspot.com/

1.What were the influence of the printing press on the society of that period? Or Do you think printing played a significant role in popularising Renaissance literary works? (First Term Model)

- Spread of Ideas and Knowledge

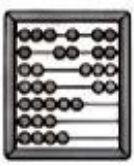

- Increased Literacy and Education

- Social Transformation

- Progress in literacy

- Cultural and Intellectual Growth

Vim@l

1. Discuss the contribution made by Renaissance science to the progress of modern society ?

(First Term Model)

- Until the 16th century, the belief that the Earth was the center of the universe prevailed.
- Galileo challenged and negated the geocentric belief.
- Remarkable transformations took place in the field of astronomy.

- Scientists put forward a view that planetary motions are governed by material forces.
- The geocentric model of Ptolemy,challenged by Nicolaus Copernicus.
- He argued the center of the universe is not the Earth, but the Sun.
- Copernicus demonstrated that the Earth and other planets revolve around the Sun.
- Galileo Galilei and Johannes Kepler expanded it.

- Renaissance also witnessed significant advancements in the field of medicine, particularly anatomy.
- Paracelsus conducted research on the causes of diseases and its remedies. Andreas Vesalius conducted human anatomy related study

Vim@l

1. The influence of humanism became the reason for Reformation, justify this statement ?

(First Term Exam)(First Term Model)

The influence of the Renaissance extended to the realm of religion

Humanists protests against certain practices and beliefs within the Church

One contentious issue was the sale of indulgences, where the Church would collect money.

Johann Tetzel, a Dominican monk, arrived in Germany to promote the sale of indulgences.

Martin Luther, a priest, pasted his famous 'Ninety-Five Theses' on the doors of the Wittenberg Cathedral.

This pivotal event marked the beginning of the Protestant Reformation. The universities of Germany played an important role

Leaders Of Reformation-

$ Huldrych Zwingli and John Calvin in Switzerland $

$ King Henry VIII in England

Vim@l

Downloaded From: https://textbooksall.blogspot.com/

STUDY GUIDE: THE COUNTER-REFORMATION

Q25.The Counter Reformation was both a reaction against the reformation and an. effort to reform itself. Evaluate the statement based on the initiatives taken by the Catholic church.

(First Term Exam)

$ Following the Reformation, the Catholic Church initiated efforts to reform itself, a movement known as the Counter-Reformation.

$ The Church leadership convened the Council (Synod)

$ It tried to correct erroneous tendencies within the Church,and to implement reforms.

$ The sale of indulgence was banned. A list of books (The Index) that should not be read, was published.

$ The court of inquisition was reinstituted.

$ The Society of Jesus, ' set up by Ignatius Loyola ,also played a prominent part. Its members were bound strict discipline and unquestioned obedience.

$ They tried to establish the authority of the Catholic Church by setting up schools and engaging in active missionary work.

$ Counter Reformation succeeded in eliminating a number of wrong tendencies.

Downloaded From: https://textbooksall.blogspot.com/

Q51. Substantiate the importance of Dante's "The Divine Comedy' based on the Renaissance values.

(Second Term Exam)

**See Qn no -13

Q52. Whether Renaissance is the revival of the ancient period or the negation of the medieval period? State your arguments by analysing the background of the Renaissance.

(SCERT Model)

Vim@l

Influence of Greco Roman culture - Greco Roman style - Roman Law - Latin language – Constantinople - Conquest of Turks - scholasticsm - Humanism - Rational thinking - Secular values - regional languages - change in art and science - trade progress – negation of feudalism (These ideas should be explained)

Downloaded From: https://textbooksall.blogspot.com/

Q24. How does the responsibility of the administrator as 'presented by Machiavelli through his work 'The Prince' differ from the traditional medieval feudal administrators? (First Term Term Exam)

$ Ruler must maintain the authority and security of the state.

$ He should remain impartial and avoid showing favouritism to specific groups among the subject.

$ In his work, The Prince, Machiavelli breaks from the traditional medieval ruler, which was often tied to divine right.

$ To him paramount responsibility of a ruler is to maintain the authority and security of the state.

Explain the autocratic rule of Bourbon rulers
OR
Why did the Bourbon regime in France become an anti-people regime? (SCERT Model)

- 1. All the rulers were despotic.
- 2. They believed in the divine right of rulers.

- 3. Bourbon kings Louis XIV declared, "I am the State."

- 4. His Corruption, extravagance and continuous wars put the country and its people in misery.

- 5. To find money for his extravagance he imposed new taxes.

Vim@l

- 6. Louis XVI, who came to power later did not pay much heed to governance. The king pretended not to see the queen's extravagance.

SOCIAL SYSTEM IN 18TH CENTURY FRANCE

"Nobles fight, Priests pray, and the Commons pay" - Elucidate Socio-Eocio-Economic Inequalities in France Court Oath? (First Term Model)

- Why did the third estate in France oppose the rule of the Bourbon Kings while the first and second estates supported them. (SCERT Model)
- Analyse the social system in 18th century France and prepare a note. (First Term Model)
- The rights enjoyed by the First and Second Estates were the reasons for the revolution (SSLC Model)

First Estate	Second Estate	Third Estate
The Clergy	The Nobility	Comprised of the middle class workers and peasants
# The Catholic Church in France was very powerful and wealthy. # The church owned a large tract of. Both clergy and Nobility exempted from all types of taxes. # They levied a tax called the tithe on the peasants.	# The nobles held the highest positions in government and in the army. # They were landowners as well. # They lived luxuriously, collected various taxes.	# They were obliged to pay various taxes to the king, the church and the nobles. # They had to perform services that were unpaid and compulsory like service,construction service etc.

#FRENCHREVOLUTION #STUDYGRAM #18THCENTURYFRANCE

Vim@l

Evaluate the role of thinkers in inspiring the people to protest against the injustice existed in France. (First Term Exam)

Voltaire

- Philosopher, historian, satirist, anca philanthroist.
- He was not an atheist, criticised the clergy .
- He was expelled from France .

Rousseau

- His work, The Social Contract, defined the relationship between the importance of Freedom.
- "Man Is Born Free But Everywhere Hs In Chains".
- He argued that, "good laws good citizens."

Montesquieu

- Criticised the evils of the church and the tyranny of the state.
- He advocated limited monarchy
- Suggested Divvision Of Powers Of The Government into Legislature ,Executive and Judiciary.
- His famous work The Spirit of Laws, analyses the principles of government and the evolution of law and the constitution.

John Locke

- His famous work, "Two Treatises of Government".He rejected the divine right and tyranny of the king.

Turgot and Necker

* Conceived many plans to improve the economic situation of France.
* These economic policies reflected the interests of the middle class.
* Encouragent of agriculture and free trade of food items were important among them.

Vim@l

The Estates General Meets (SSLC Model)

Like society Estates General was divided into three
Expalin- (First Term Model)

King and Crisis

< To overcome the Economic crisis, to levy new taxes upon commoners, Louis XVI summoned the States General

Assembly of Estates

< It was the legislative assembly of the representatives from all the the three estates, in 1789.

Three Estates Defined

< It had three Estate.

Voting Gridlock

< The first two estate argued for estate wise single voting system.

Commoner Demand & II

< While 3rd estate (commons) demanded individual vote for each member of all three estates.

< King Louis XVI did not make any preparation to resolve ttese problems.

Vimal

Downloaded From: https://textbooksall.blogspot.com/

B) The Tennis Court Oath

How did the structure of the French parliament called Estates General lead to the Tennis Court Oath? Elucidate. (SCERT Model)

- Third Estate declared themselves the real representatives of the people.
- They called their assembly the French National Assembly.
- They declared that they would not leave until they draft a constitution for France.
- This was later known as the Tennis Court Oath.
- Leaders - Jean-Sylvian Bailly, Abbé Sieyés, and Mirabeau.
- This session of the National Assembly to known as the 'Tennis Court Assembly.

Vim@l

Downloaded From: https://textbooksall.blogspot.com/

C) The Fall of Bastille and the Beginning of the Revolution

Evaluate the fall of the Bastille , the beginning of the revolution (**First Term First Term Model)**

@ King Louis XVI dismissed his advisor **Necker** and ordered him to leave Paris.

@ Provoked mob seized the granaries and bakeries in Paris.

@ They amassed weapons and stormed the Bastille, the symbol of Bourbon despotism, on **July 14, 1789**

Vim@l

Downloaded From: https://textbooksall.blogspot.com/

Fearing the wrath of the people, Louis XVI approved the laws passed by the National Assembly. Which are they? (First Term Model)

- Abolition of slavery
- Taking away the special powers vested on the nobility
- Abolished the tax the people had to pay to the Catholic Church.
- Cancellation of additional taxes

Vim@l

Downloaded From: https://textbooksall.blogspot.com/

Declaration of Human Rights of France in 1789 ?

(Second Term Exam)

- Men are born and remain free and equal rights.
- The aim of all political associations is the preservation of the natural and indiavisible right of man.
- These rights are liberty property, security, and resistance to oppression.
- The principle of all sovereignty resides essentially in the nation.
- Liberty consists in the freedom to do everything which injures no one else.

Vim@l

List out the reforms implemented in social, economic, and political spheres of France by National Assembly ? (First Term Exam)

- *Implemented a unified constitution .*
- *Issued a new paper currency called 'Assignat' .*

- *Confiscated the properties controlled by religious leaders .*
- *Declared complete religious tolerance .*
- *Clergy became salaried government employees.*

Vim@l

Napoleon's administrative reforms laid the foundation of modern France. Write administrative reforms Napoleon. ? **SSLC 2026 (First Term Model)**

OR It was the interests of the middle class that reflected in the reforms of Napoleon. Substantiate the statement. **(SCERT Model) (First Term Exam)**

Reforms	Changes
Legal reforms 	> By Napolenic code, Feudal laws were abolished > Equality and religious freedom were recognised
Concordat 	> As per the agreement with the Pope, the freedom of the catholic church was restored. > Other religious groups were also granted freedom.

Downloaded From: https://textbooksall.blogspot.com/

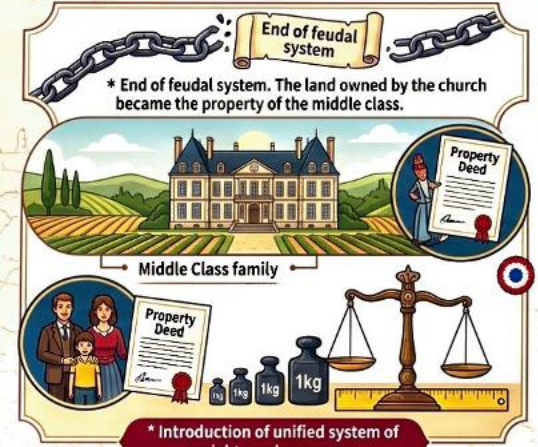

Educational reforms  **Economic reforms** 	> Steps were taken to universalise education. > Government-run schools called lycee were established. > The goal of this was to produce educated people for government service and the army. > A national university system called the University of France was established. > Through this system, the state controlled the country's education.
Economic reforms  **Military reforms**	> Established The Bank of france and implemented a unified currency system > The army was recognised into several battalions

Vim@l

STUDY GUIDE:

Key Consequences of the French Revolution (Result/Impact)

Do you agree with the statement that the French revolution had decisively influenced the subsequent history of the world? Elucidate. (SCERT Model)

* End of feudal system. The land owned by the church became the property of the middle class.

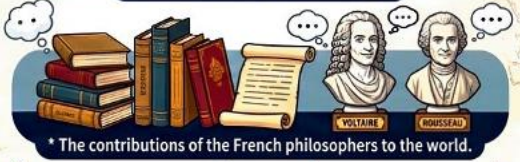

* Introduction of unified system of weights and measures.

* The French Revolution also influenced the struggles for national independence that took place in Asia and Africa.

* Contributed the idea of the sovereignty.

* The contributions of the French philosophers to the world.

* Women's participation in achieving rights.

Vim@

What is meant by Continental System?

Or What are the continental system that Napoleon devised to destroy Britain? Why did it fail?

- Napoleon's arch enemy was Britain.
- Because they had well esablished naval powal power.
- He devised plans to destroy Britain economically.
- For this Purpose,he formulated a Plan.that is called Continental system.
- According to this, countries that were under the control of France nations of France were banned from trading with Britain.

STUDY SESSION: The Congress of Vienna

'The map of Europe has been redrawn after the defeat of Napoleon. Evaluate the statement based on the major decisions of the Congress of Vienna' (First Term Exam)

After Napoleon's defeat, the countries in Europe met in Vienna in 1815 under the leadership of Austrian Chancellor Metternich.

It took some important decisions. This is known as the Congress of Vienna.

Major Decisions of the Congress of Vienna

- 👑 Restore the monarchies in European contries like Bourbon monarchy in France.
- 🚢 Recognise Britain's naval supremacy and Russia's dominance in Eastern Europe.
- 🏆 Recognise Austria's dominance in Central Europe.

The defeat of Napoleon was held in ?

* Battle of Waterloo in 1815.

Vim@l

KEY CHARACTERISTICS OF THE EQUATORIAL CLIMATIC REGION

Extends up to $10° North and South of the equator.

This region is characterised by high temperatures and high rainfall.

This region is hotter because sun's rays fall almost vertically throughout the year.

This results in higher air convection and convectional precipitation.

These areas receive rainfall every day in the afternoon.

Evergreen forests are abundant in the equatorial climatic region due to high temperatures and high rainfall.

Vim@l

- Elucidate Monsoon climatic region (First Term Model)
- Or In monsoon climatic regions, diurnal range of temperature is very low in coastal areas and very high in the interiors. (SSLC 2026)
- This region is known as monsoon climatic region, because of the decisive influence of monsoon winds.
- Monsoon climate is characterised by long and humid summer and short dry winter.
- In monsoon climatic regions, diurnal range of temperature is very low in coastal areas and very high in the interiors.
- Depending on the factors like physiography, direction of wind, and distance from the coast, rainfall distribution also varies in the monsoon regions.
- Regions with as little as 50 cm of rainfall to areas receiving over 1000 cm of annual rainfall can be found in this region.

Vim@l

Explain Savanna Climatic Region (Tropical grasslands)

(SCERT Model) (First Term Exam) (First Term Model)

★ Savannas are tropical grasslands found between 10° and 30° latitudes in both the hemispheres. 

★ These grasslands are known by different names in different regions.

Name	Region
Savanna	Africa
Campos	Southern Brazil
Llanos	Venezuela

Vim@l

Prepare a short note on Climate in Tropical grasslands

(SCERT Model) (First Term Exam)

- Hot and humid summers, and cool and dry winters.

- The annual average temperature here is between 21° C and 32° C and also receives annual rainfall of 25 cm to 125 cm.

Vim@l

Substantiate the features of Flora and Fauna of Tropical grasslands (SCERT Model)

(First Term Exam)

- # Deciduous trees and tall grasses are the dominant vegetation of this region.
- # As we move closer to the deserts, short bushes and thorny forests are seen.
- # The forests and grasslands here provide a favourable habitat for wild animals.
- # Herbivorous animals like giraffes and zebras abound in these grasslands.
- # Carnivorous animals like lion and tiger are also found here.
- # When we approach the western margins of tropical grasslands, height of the trees gradually decreases with the decrease in rainfall.

Prepare a seminar paper on Human life in Tropical grasslands (SCERT Model) (First Term Exam)

@ Although soil found here is relatively fertile, due to low rainfall, 'dry farming' that requires less amount of water is adopted.

@ Animal husbandry and agriculture are the means of livelihood.

@ Population density is generally low .

@ Maasai, an indigenous tribe of the African savanna(First Term Exam) leads a pastoral life.

@ Cash crops are cultivated extensively in the savanna areas of former European colonies.

@ Cotton cultivation in Sudan and coffee cultivation in Brazil are examples.

Vim@l

Why hot deserts are located mostly on the western margins of continents ?

(First Term Exam) (SSLC 2026)

$ As the trade winds travel across the continents and reach the western margins, the wind loss its moisture and become dry.

$ Therefore the western margins of continents remain dry throughout the year.

$ This is the main reason for the formation of deserts on the western margins of continents.

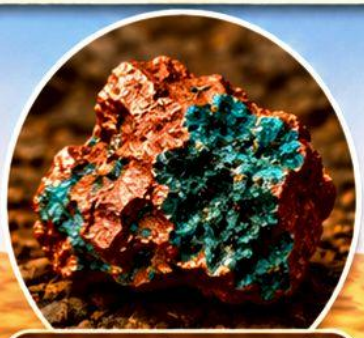

Briefly explain Human Activities in Hot deserts climatic region (SSLC Pre Model)

- Agriculture and animal husbandry are the main means of livelihood in deserts.
- The presence of economically valuable minerals promotes human life.
- Gold mining in Australia and copper in Atacama Desert.
- Discovery of petroleum deposits and the starting of oil mining in the Sahara and Arabian deserts, have changed the very face of these regions.

Agriculture and animal husbandry

Presence of economically valuable minerals

Gold mining in Australia and copper in Atacama Desert

Discovery of petroleum deposits and the starting of oil mining in the Sahara and Arabian deserts, have changed the very face of these regions.

Vim@l

Prepare a short note on Climate in Mediterranean Climatic Region (First Term model)

Or Why humid winter season experienced in the Mediterranean Climatic Region (SSLC Model)

It is a region that experiences dry summers and humid winters.

Temperature of around 20-25° C is experienced in summer.

Highest temperature during winter is 10° C to 16° C. Winter rainfall of 30 to 75 cm distinguishes this region from other climatic regions.

Rains during the winter are beneficial to the winter crops. Westerlies are responsible for winter rainfall in the Mediterranean region

Agriculture / Which things which make the Mediterranean region an area of great economic importance ? (SCERT Model)

* Agricultural practices developed according to the climate conditions and related activities.
* Fruits and vegetables are the major produces of this region.
* Cereals and pulses are also cultivated .
* The Vine Yard in Mediterranean countries are the world's leading producers of wine.
* About 70 percent of citrus fruit export comes from here.

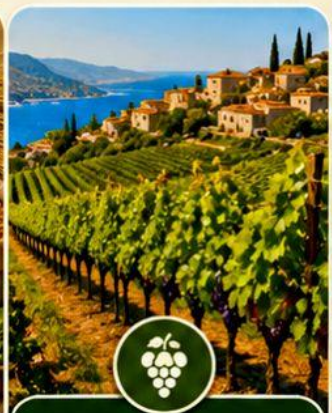

* Agricultural practices developed according to the climate conditions and related activities.

* Fruits and vegetables are the major produces of this region.

* Cereals and pulses are also cultivated .

* The Vine Yard in Mediterranean countries are the world's leading producers of wine.

* About 70 percent of citrus fruit export comes from here.

Mediterranean agriculture is diverse, productive and of great economic importance.

Vim@l

Which climatic region includes grasslands known as steppes?
Mention the salient features of this climatic region.
List the grasslands found in other part of the World
(SCERT Model) (First Term Model)

- **Steppes-Temperate Grasslands (Asia and Europe)**
  - As in the tropics, in the interior of the subtropical zone, the maritime influence is minimal and treeless grasslands are found.

- Located in both the hemispheres at a latitudes between 40° and 50°. Known by different names in different regions.

GRASSLANDS FOUND IN OTHER PART OF THE WORLD

Pampas (South America)

Prairies (North America)

Veld (South Africa)

Downs (Australia)

Vim@l

CLIMATIC CHARACTERISTICS OF TEMPERATE GRASSLANDS

(SCERT Model)

< Short summers and long winters are the characteristics of the temperate grasslands.

< These regions experience high temperature in summer as they are located at the interior of the continents.

< Average winter temperature ranges from 2° to 13°C. Rainfall here ranges from 25 cm to 60 cm

ELUCIDATE THE NATURAL VEGETATION IN THE TEMPERATE GRASSLANDS

> Fluctuations in the rainfall availability is reflected in vegetation also.

> Due to less rain, trees are also few.

> Varieties of grass are generally found

Vim@l

TAIGA REGION

(SCERT Model)

$ It is a cold region located between latitudes of 55°N and 70°N. Short summers and long winters .

$ Summer temperature is from 15° C to 20° C while winter temperature drops up to -13° C to -25 ° C.

$ Receives an annual rainfall of 50 cm to 70 cm. In winter, precipitation is in the form of snowfall.

Vim@l

THE SOUTHERN HEMISPHERE DOES NOT EXPERIENCE TAIGA CLIMATE. WRITE THE REASON.

(First Term Model)

- Taiga climatic region is absent in Southern Hemisphere because the extent of landmass is generally less.

- This region is dominated by sub-Arctic coniferous evergreen trees.

- This region is named as Taiga because of the abundance of such coniferous trees.

- Coniferous trees such as pine, fir and spruce are found here

- Cultivation is very less in this region. Lumbering and wool industry are the main economic activities.

- Lumbering industry is very popular in Canadian Taiga region.

Vim@l

ALONG WITH THE NATURAL CLIMATE CHANGES, HUMAN INTERVENTION ALSO CAUSES CHANGES IN THE WORLD CLIMATE.

What the activities that cause climate change and classify them as natural and anthropogenic causes. (First Term Exam)

Natural causes.	Anthropogenic causes.
Volcanic eruption	Deforestation
Ocean currents	Oil mining
Cyclic climate changes	Burning of fossil fuels
Tsunami	Industrialization

Vim@l

$ Teenagers are always rebellious and irresponsible. Elucidate how this statement can be an example for stereotype. **(First Term Exam) (SSLC Model)**

$ It is a general statement to make that teenagers are always rebellious and irresponsible.

$ Such general statements, beliefs or ideas are referred to stereotype.

$ When observed in this way, it can be seen that the statement about teenagers is a stereotype.

$ Such stereotype creates misconception about teenagers.

$ Teenagers are indeed a heterogeneous group, usually showing responsibility and mutual respect.

$ But such stereotypical statements lead to a lack of trust in teenagers.

$ Moreover it results in misplaced assumptions about their behaviour.

Vim@l

Eating till you are full is good for health.Do you think the above statement is stereotype based on commonsense knowledge?

(SSLC Pre model) SSLC 2026

The above statement is stereotype based on commonsense knowledge.

Such general statements, beliefs or ideas are referred to stereotype.

Having nutritious food is actually good for health. Also have sufficient quantity of focich includes vitamin,protien, fat etc.

Downloaded From: https://textbooksall.blogspot.com/

Vim@l

What are the Limitations of Commonsense Knowledge? (SCERT Model)

Relies on speculations or practices

Bases itself on stereotypes

Provides only partial knowledge

Complex social problems cannot be understood.

Vim@l

Downloaded From: https://textbooksall.blogspot.com/

Anu couldn't take care of her studies nowadays. Is it merely an individual problem ? What other factors might have influencced her ?

(First Term Exam)

@ No.

@ Financial, Social, Environmental, Administrative, Political, Geographical disparities, Cultural factors might have influenced her studies/ an individual problem.

Problems	Factors
Anu's family has no steady source of income	Financial
Income varies with change of season	Environment
Limited employment opportunities during rainy season	Administrative
Problems faced by people living in different geographical areas.	Geographical disparities

Vim@l

Sociological Perspective vs. Commonsense Knowledge (Second Term Exam)

1.Individual problems or complex social problems cannot to be understood properly by using commonsense knowledge. Substantiate the statement based on the problems of housing.

$ Financial instability, Unemployment, Income Inequality, High Construction Costs.
$ But we try to see the problems of housing on the basis of commonsense knowledge; it is difficult to find solutions.
$ Because commonsense knowledge is normal & unscientific.
$ Financial, Environment, Administrative, Geographical disparities are other factors that can contribute to one's problems.

Commonsense View (Superficial)

Sociological View (Systemic & Deep)

Vim@l

Individual problems or complex social problems cannot to be understood properly by using commonsense knowledge. Substantiate the statement based on the problems of housing (Second Term Exam)

$ Financial instability,Unemployment,Income Inequality,High Construction Costs.

$ But we try to see the problems of housing on the basis of commonsense knowledge; it is difficult to find solutions

$ Because commonsense knowledge is normal & unscientific.

$ Financial,Environment,Administrative, Geographical disparities are other factors that can contribute to one's problems.

One of the features of sociological imagination is to understand social problems in depth. Explain this feature of sociological imagination on the basis of gender status (First Term Model)

$ While common sense often blames a lack of individual initiative for women's low workforce participation, the sociological imagination reveals systemic barriers.

$ Gender norms often dictate that men are providers while women are confined to domestic caretaking, directly limiting their economic opportunities. Furthermore, unequal access to education stunts women's professional growth.

$ By analyzing these cultural, economic, and educational structures, we can understand that the gender gap in labor is a result of societal design rather than personal choice.

Gender Norms

Unequal Access to Education

Limited Economic Opportunities

Breaking Barriers, Building Equality

Vim@l

What do you mean by self-reflexivity? Elucidate the importance of self-refiexivity in sociological imagination. (Second Term Exam)

Sociological imagination bridges the gap between personal experience and social structures by fostering self-reflexivity.

By evaluating one's own thoughts and actions through a critical lens, individuals can move beyond limited "commonsense" perspectives to identify the broader social forces driving personal challenges.

Ultimately, this analytical approach benefits both the individual and society by fostering deeper self-awareness and a systemic understanding of human issues.

Downloaded From: https://textbooksall.blogspot.com/

Sociological Imagination: A Tool for Social Enrichment (SCERT Model)

Sociological imagination becomes a powerful tool, skill and approach that enrid social life. Broadens individual perspectiv perspective - Sociological imagination helps to identify how other social factors influence individual problems and thus broaden the individual's perspective.

Vim@l

How Commonsense knowledge and Sociological imagination differ in analysing social problems

(First Term Exam)

Commonsense Knowledge Approach	Sociological imagination Approach
 * Limited to personal views and experiences	 * Its scope is broad as it connects individual experiences to larger social structures
 * Often provides only a superficial explanation based on stereotypes	 * Analyses deeply the impact of social factors on individuals
 * Social realities and problems are not approached through critical thinking	 * Encourages critical thinking about interrelationships between personal experiences and social structures

How does utility become individual - based? Elucidate with an example. **(Second Term Exam)**

- Utility is individual-based. It may vary depending on place and time. For example, the utility provided by a fan to a person living in a hot climate may not be the same for a person in a cold climate. Any consumer would prefer to choose goods and services that provide the most utility. But we know that the price of goods and the income of the consumer often influence ohe choice of goods and services. Every consumer would like to have quality goods and services available at a reasonable price and in accurate measurement. It is also the right of'the consumer.

Vim@l

What are the Different types of goods and services ?

(SCERT Model) (First Term model)

 Free goods	Those that are abundant in nature and are freely available to everyone. They need not be paid for.Eg: Air, sunlight, sea water
 Economic good	Goods and services that are purchased and used for a price. They can often be manufactured or collected from nature.Eg: food, clothing, car goods and services that are purchased and used for a price.
 Capital goods (SSLC Model)	Physical product which is used in the production of another product. Capital goods are goods that assist in the production process and are sometimes used as consumables. Eg Factory Machinery
 Durable goods	These are things that last for a long time. They can be reused.eg - House, Footwear,Table
 Non-durable goods	These are items that can be used only for a short period of time.Eg Milk, Vegetables
 Consumer goods (SSLC Model)	Final Good which satisfies our needs.

Vim@l

The Consumer Protection Act 2019 aims at empowering consumers and protecting their rights? Evaluate the statement in the light of current situation (SCERT Model) (First Term Exam) (SSLC Pre Model)

@ This act Came into force on 20 July 2020.

Features of Consumer Protection Act 2019-

Consumer Rights

Fair Trade

Legal Protection

@ Established The Central Consumer Protection Authority (CCPA) to protect and enforce the rights of consumers.

@ Covers rules to prevent unfair trade practices by e-commerce platforms.

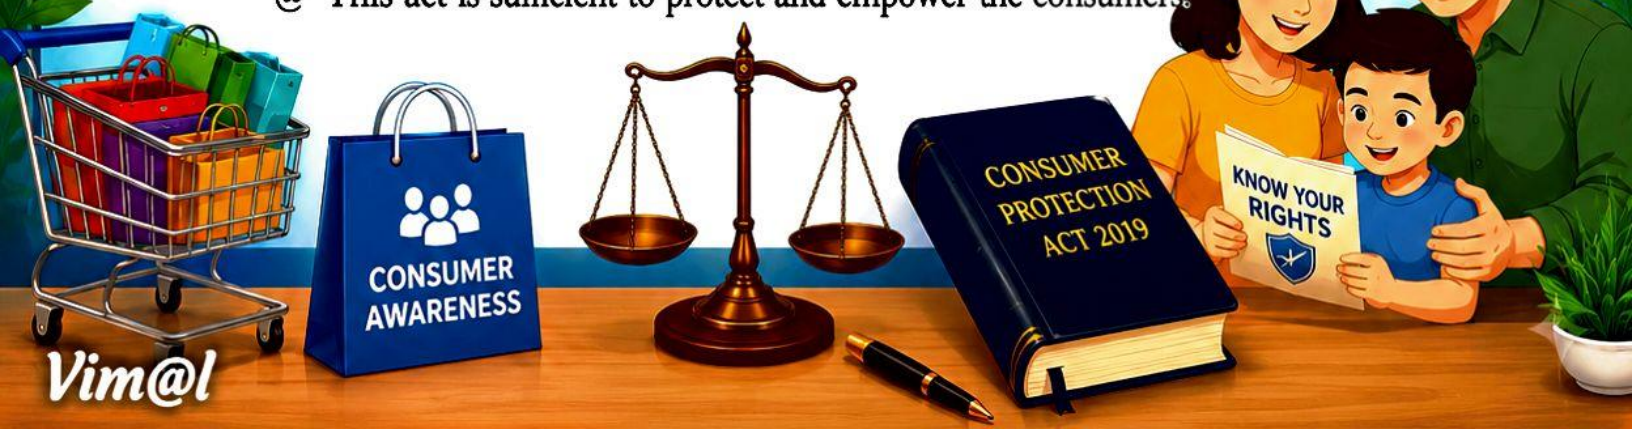

@ Helps in simplifying the consumer dispute resolution process.

@ Provides for punishment of those who manufacture or sell adulterated counterfeit goods.

@ Prohibits the dissemination of misleading advertisements.

@ Guarantees the right to consumer education.

@ This act is sufficient to protect and empower the consumers.

Vim@l

List the Rights of the consumer ensured by laws

Or (Ajay purchased two shirts from s shop for his use. But it got damaged in the next week itself when he started using it as per the instructions given in it. Whom should he approach in order to get compensation for the damage occurred. What all rights of Ajay are violated here?)(First Term model)

Or As a consumer, one needs to be aware of ones rights and also able to avoid being cheated . What suggestions do you have to put forward to avoiding cheated?(SSLC Pre model)

$ Right to Safety protections from those goods and services that pose a threat to life and property .

$ Right to Choose goods and services at competitive prices.

$ Right to Know the quality, quantity, purity and price of goods to protect the consumer from unfair trade practices.

$ Rights to seek redressal from unfair trade practices and consumer exploitation.

$ Right to Consumer Education The right to acquire the knowledge and skills to be an informed consumer.

Downloaded From: https://textbooksall.blogspot.com/

Vim@l

What are the Objectives of Consumer Protection Movement (SCERT Model) Pre model

< To protect consumer rights < To prevent frauds < To empower consumers

< To legislate < To ensure the credibility of advertisements

Vim@l

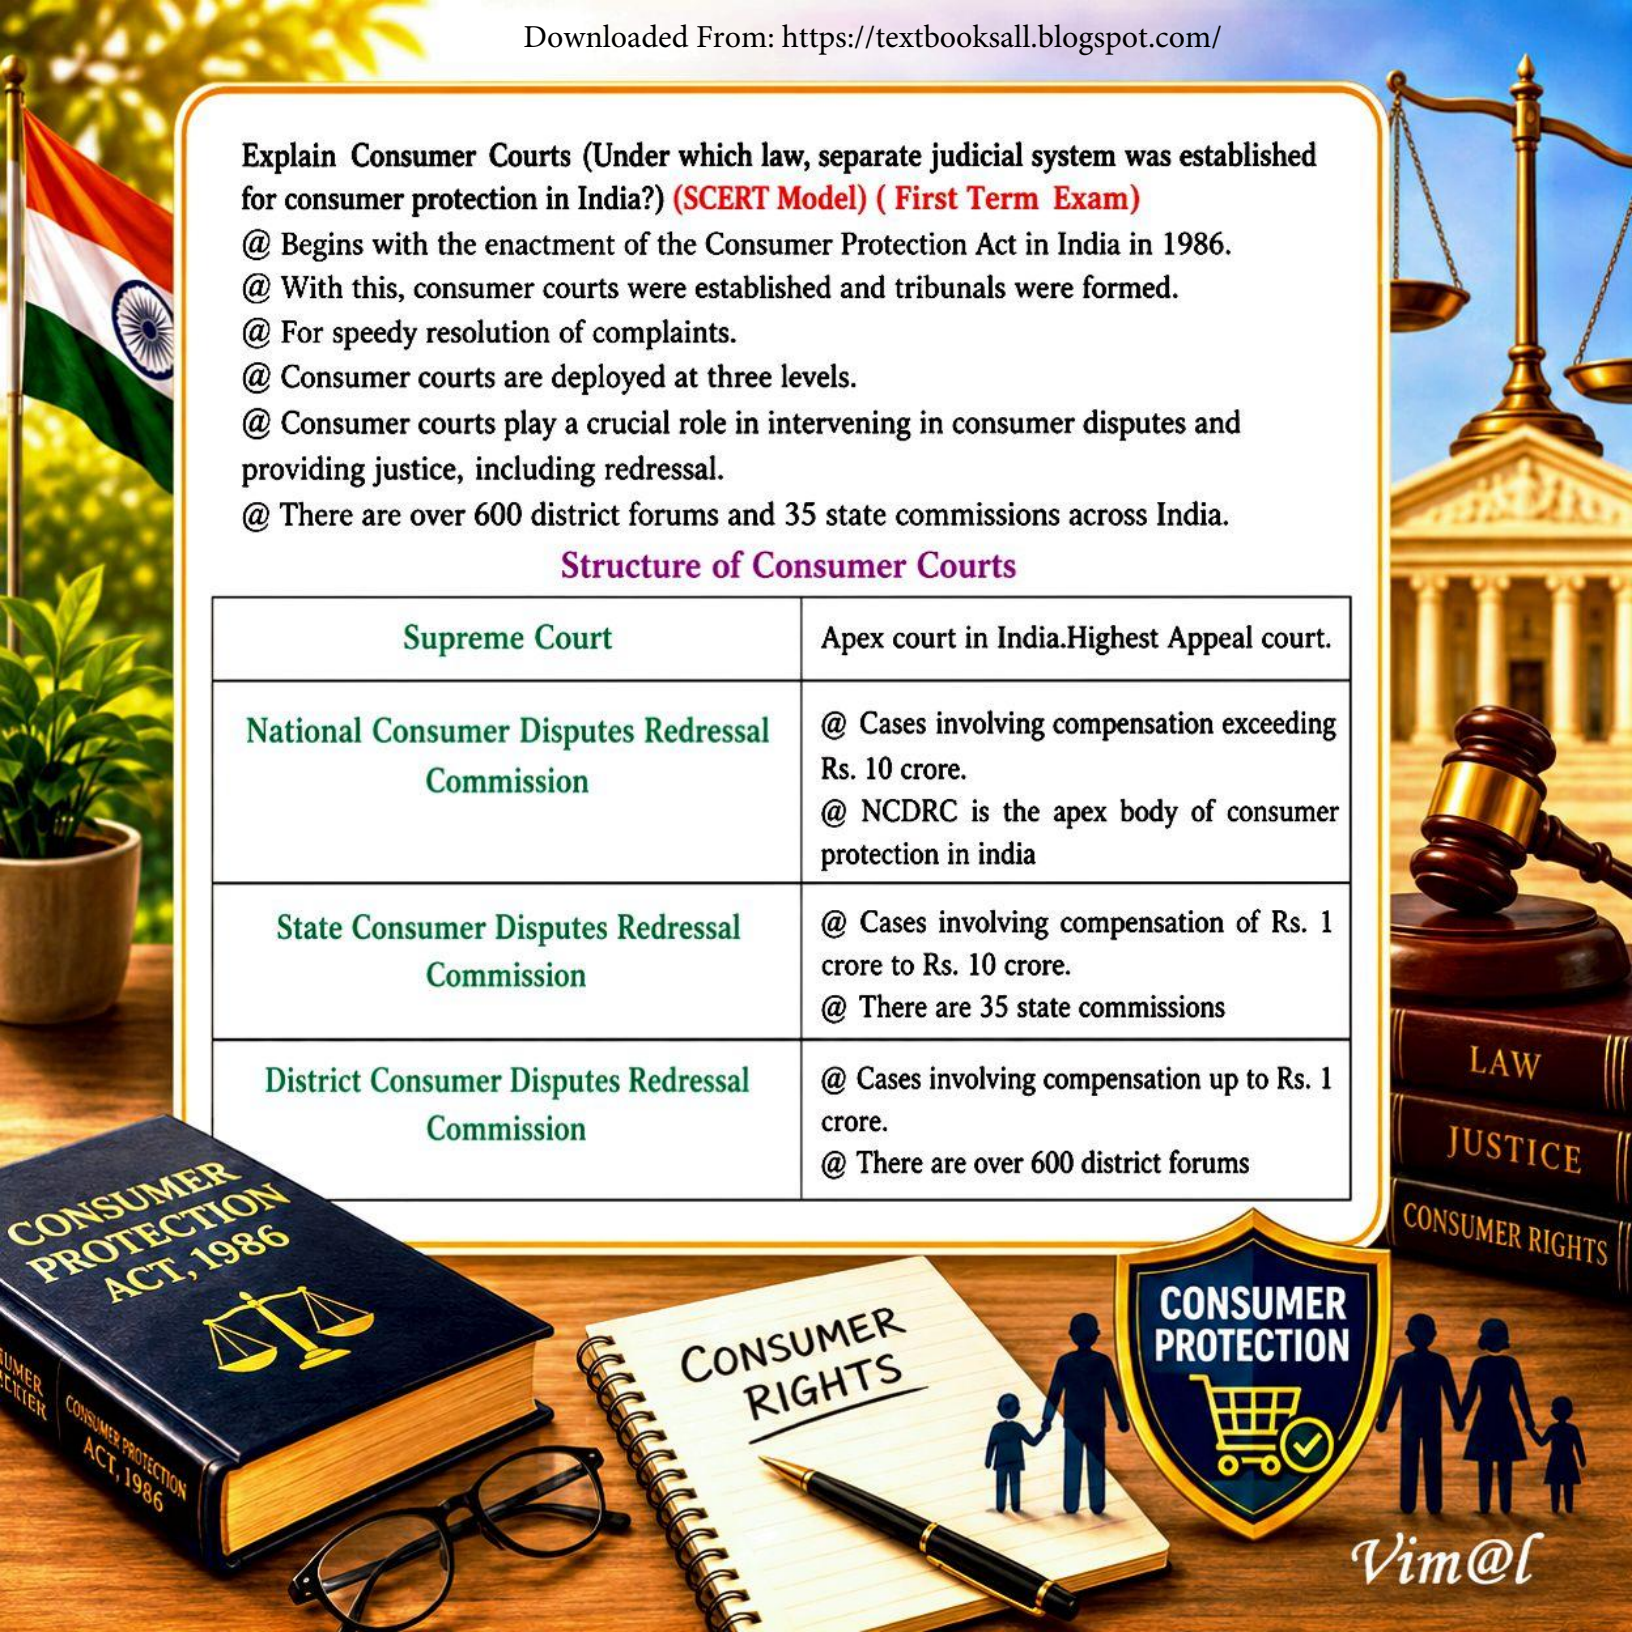

Downloaded From: https://textbooksall.blogspot.com/

Explain Consumer Courts (Under which law, separate judicial system was established for consumer protection in India?) (SCERT Model) (First Term Exam)

@ Begins with the enactment of the Consumer Protection Act in India in 1986.
@ With this, consumer courts were established and tribunals were formed.
@ For speedy resolution of complaints.
@ Consumer courts are deployed at three levels.
@ Consumer courts play a crucial role in intervening in consumer disputes and providing justice, including redressal.
@ There are over 600 district forums and 35 state commissions across India.

Structure of Consumer Courts

Supreme Court	Apex court in India.Highest Appeal court.
National Consumer Disputes Redressal Commission	@ Cases involving compensation exceeding Rs. 10 crore. @ NCDRC is the apex body of consumer protection in india
State Consumer Disputes Redressal Commission	@ Cases involving compensation of Rs. 1 crore to Rs. 10 crore. @ There are 35 state commissions
District Consumer Disputes Redressal Commission	@ Cases involving compensation up to Rs. 1 crore. @ There are over 600 district forums

What are the Objectives consumer education **SSLC 2026**

- To protect consumer rights.
- To make consumers aware of their responsibilities.
- To ensure safety in trade, especially online trade.
- To identify ethics and regulations in the market

Vim@l

Deepa purchased a mobile phone. But it was damaged within its warranty period. She couldn't get it replaced as she didn't receive the bill. Analyse the objectives of consumer education based on this problem. (First Term Exam)

> Here Objectives of consumer rights are Understanding Consumer Rights like right to be heard, the right to safety, and the right to seek redressal.

> Importance of Documentation- Consumer education should emphasize the critical role of documents like bills, receipts, and warranty cards.

> Navigating Consumer Grievance Redressal -A crucial objective is to inform consumers about the process of filing a complaint and seeking redressal. This includes knowing where to complain (e.g., consumer forums).

> Making Informed Purchases-Educating consumers to make informed choices is another key objective. This includes advising them to check product details, terms and conditions, and warranty policies before making a purchase

Vim@l

UNDERSTANDING CONSUMER RIGHTS

IMPORTANCE OF DOCUMENTATION

NAVIGATING CONSUMER GRIEVANCE REDRESSAL

MAKING INFORMED PURCHASES

AWARE CONSUMER • EMPOWERED CONSUMER • RESPONSIBLE CONSUMER

- All products must be of the same quality
- The consumer's income and tastes do not change.

ASSUMPTIONS OF CARDINAL UTILITY THEORY

Vim@l

- Consumption must be continuous
- The use of other goods must be ascertained
- The units must be of a fixed quantity and quality

LIMITATIONS OF THE LAW OF DIMINISHING MARGINAL UTILITY

Downloaded From: https://textbooksall.blogspot.com/
