Set C

SUMMATIVE ASSESSMENT III - 2025-26
SSLC Model Question Paper
Social Science

Std: X **Time: 2½ Hours**
Max Score: 80

Instructions

- There is a 'Cool of time' of 15 minutes in addition to the writing time. Use this time to get familiar with question and to plan your answers
- Read the questions and instructions carefully before answering
- Answer the questions considering score and time.
- Some questions are given with choices. Answer any one question from the choices
- For answering the map question use the outline map of the world provided.

Answer all questions from 1 to 8. Each carries 1 score. **(8 ×1 = 8)**

1. Select the suitable items from column B for the given in column A.

A	B
Hot deserts	a) Llanos grasslands are found.
	b) Receives an annual rainfall ranging from 50 cm to 70 cm
	c) Average annual temperature is 30^0C
	d) Located mostly along the western margins of the continents

A. a, c

B. a, d

C. c, d

D. a, d

2. Who is related to the Gandhian plan which was an important one in the history of Inida's planning.

A. Jawaharlal Nehru

B. S.N. Agarwal

C. M.N. Roy

D. Mahatma Gandhi

3. Match the item given in column A with appropriate items from column B.

A	B
Renaissance painting	i) Landscapes ii) Portraits iii) Unrealistic depiction of human body iv) The use of oil paint.

A. i, ii are right

B. i, ii iii are right

C. ii, iii and iv are right

D. i, ii and iv are right

4. Under which one of the following situations does place 'B' record a higher diurnal range of temperature than place 'A'?

A. Both A and B are located at a high altitude above mean sea level.

B. Both A and B are located far away from the sea.

C. Place A is located on the coast, and place B is located far away from the sea.

D. Place B is located on the coast, and place A is located far away from the sea.

5. Which of the following are not the characteristic features of the Chipko movement?

i. movement formed against the Sardar Sarovar project.

ii. opposed the felling of trees in large scale for industrial purposes in the Himalayan regions of Uttarakand.

iii. Stood for the conservation of biodiversity in rain forests

iv. form of struggle involving embracing trees.

A. i, ii

B. ii, iv

C. i, iii

D. iii, iv

6. Assertion (A) : The Quit India Movement was the mass movement called by Gandhiji.

Reason (R) : It was the Chauri Chaura incident that forced Gandhiji to start this movement.

A. (A) is true, (R) is not the correct explanation of (A).

B. (A) is false, (R) is not the correct explanation of (A).

C. (A) is false, (R) is true.

D. Both (A) and (R) are false.

7. From the details of the development report prepared by the World Bank on the basis of Per Capita Income, choose the percapita income of the lower, middle, income group which includes India.

   A. 4516 to 14005

   B. 1146 to 4515

   C. Below 1145

   D. 1461 to 4155

8. Write whether the following statements are true or false.

   Statement 1: Monsoon climatic region and Savanna climatic region belong to tropical region.

   Statement 2: Tundra and Taiga belong to frigid zone.

   A. Only 1 is true.

   B. Only 2 is true.

   C. Both 1 and 2 are true.

   D. Both 1 and 2 are false.

Answer the questions from 9 to 15 in two or more sentences. Each carries 2 score.

(7 × 2 = 14)

9. How did the trade progress of Italy lead to the Renaissance.
10. Sociological imagination becomes a powerful tool, skill and approach that enriches social life. Analyse the statement.
11. Elucidate the importance of Hydrogen a non-conventional energy resource.

OR

B) The following diagram represents the distribution of isobars at two different places. Analyse the diagram and answer the following questions.

a. Explain how wind is related to atmospheric pressure?

b. Which of these two places in diagram A and B has a low pressure gradient? Why?

c. At which of these places speed of the wind is high? Why?

Social Science

General **Set C**

Performa for Scoring & Marking Scheme

Qn. No	Score	Value Points	Instructions
1	1	C) c, d	
2	1	B. S.N. Agarwal	
3	1	D. i, ii, iv are True	
4	1	C. Place A is located on the coast, and place B is located far away from the sea.	
5	1	C. i, iii	
6	1	A. (A) is true, (R) is not the correct explanation of (A)	
7	1	B. 1146 to 4515	
8	1	C. Both 1 and 2 are true.	
9	2	Cities in Italy were different from the rest in Europe. Commercialisation – Decline of feudalism worthy people – worthy family	
10	2	Sociological imagination is the ability to identity and analyse the problems experienced by an individual as related to broaden social structures. This is a skill that help us to see the personal problems as part of a broadened social structure. The concept of sociological imagination helps to understand social issues in depth and to develop empathy and tolerance in individuals. The concept of sociological imagination enables individuals to approach things critically and question negative social norms. In addition, the concept of sociological imagination helps to develop the ability of self reflection. Thus sociological imagination becomes a powerful tool, skill and approach that enriches social life.	
11	2	Hydrogen is utilized as a non-conventional energy source. Hydrogen, is used to produce energy, which can serve as a clean fuel. When hydrogen is burned in a fuel cell, only water vapor is reused. It does not release pollutants like fossil fuels when they are burned. This energy is useful in areas ranging from transportation to various economic activities. It can be used.	
12	2	• Declare whether the bill has been given assent or not • Return the bill to the legislative assembly with amendments • Submit the bill for the consideration of the President (Any two points)	
13	2	• Yes • Human activities such as mining and quarrying cause the	

		weathering of rocks. • Biological weathering	
14	2	Mahatma Gandhi called for a National hartal against the Rowlatt Act – formation of satyagraha Sabha – popular participation – most wonderful spectacle	
15	2	Community resources are accessible to all members of the society. But personal resources are owned by an individual. They may not be accessible to the public.	
16	3 3	A) Diversity in society means the presence of differences within society. It includes cultural, religious, linguistic, racial and social distinctions. These diversities may not have mutual relations or mutual respect. Pluralism promotes communication between different social groups, fostering mutual respect, love, and friendship-irrespective of their diversity. Pluralism ensures that diversity does not lead to division, instead, it contributes to unity and coexistence. **OR** B) As cities depend on the villages for the raw materials for food, villages also depend on cities for technology and markets. Villages in contrast to cities, emphasise social relationships and cooperation. Rural-urban migration connects both societies. Urban societies promote industrialisation and provide modern employment opportunities. Urban life encourages cultural exchange. Rural and Urban societies maintain equilibrium through interdependence and strengthen the Indian social system.	
17	3	• Tundra • Cold condition prevails throughout the year. • Trees are generally absent. The main types of vegetation are mosses, lichens and shrubs. • The native people of this region such as Eskimos and Lappas lead a semi nomadic life.	
18	3	Transition from medieval Christian tradition to a secular life – human centred explanation. Human life becomes the focus of historical narratives – archaeological evidence and relics – manuscripts – inscriptions – coins – scientific enquiry and studies.	
19	3	It is the money that moves the economy and accelerates its functioning. Rice production is an economic activity in the primary sector. A farmer who produces rice may need fertilises, seeds, pesticides, machinery and labour. When money is spend on fertilises and machinery it becomes a source of income for the producers in the industrial sector. When the rice producers depend upon transportation facilities to get the rice to the market, it becomes a source for income for service providers (Similar examples can also be considered).	

20	3	A) • Abolished the federal system of the constitution. • Froze the fundamental rights • Abolished the court's power of judicial review • Opposition leaders were imprisoned without trial • Censorship was imposed on newspapers and news • Economic restrictions were imposed **OR**	
	3	B) Inspired by the ideas of Dr. B.R. Ambedkar, the architect of the Constitution Dalit Communities organised and formed movements. The Dalit panthers movement was formed in Maharashtra in 1972 organised aggressive resistance against caste discrimination. They organised aggressive resistance, large-scale public protest, literary and cultural programmes and various activities in collaboration with other social justice movements against caste discrimination. The Dalit Panthers Movement was able to make lives of those who were considered untouchables and marginalised in literature, cinema, and drama and to persuade the government to take strong action against attacks on Dalits. Interventions of BAMCEF can also be considered.	
21	3	Per capita income is the average income of the people. $$PCI = \frac{NI}{Population}$$ Personal income is the actual income of a person. The shortcomings of the per capita income • It is only an average income • Information about the distribution and inequality of wealth is not reflected in the income index. • Since per capita income is calculated on the basis of the national income, the limitations of calculating national income also affect per capita income. • Factors that enhance the quality of life are not included in the scope of per capita income index.	
22	3	Complete independence – Entrusted Gandhiji with the responsibility to launch a mass movement – Tri colour flag – Jawaharlal Nehru presided over Lahore Congress.	
23	3	With the advent of mobile banking and online banking, customers have been able to access various banking services using smartphones and computers. Banking services that were available only at certain time and days are now available 365 days a year, any where in the world due to the intervention of technologies. The use of cyber technology can help deliver personalised services and reduce cost.	
24	4	A) The Consumer Protection Movement in India came into being with the formation of the Consumer Guidance Society of India in Bombay in 1966. It is a social movement formed to protect the rights, and ensure the welfare of, consumers. This movement is led by various consumer organizations and individuals who work against firms or	

	4	institutions that cheat consumers. Their objectives: • To protect consumer rights • To prevent frauds • To empower consumers • To legislate • To ensure the credibility of advertisements By implementing actions geared towards these goals, consumer protection can be ensured. **OR** B) The features of The Consumer Protection Act 2019: • Established The Central Consumer Protection Authority (CCPA) to protect and enforce the rights of consumers. • Covers rules to prevent unfair trade practices by e-commerce platforms. • Helps in simplifying the consumer dispute resolution process. • Provides for punishment of those who manufacture or sell adulterated counterfeit goods. • Prohibits the dissemination of misleading advertisements. • Guarantees the right to consumer education. To evaluate whether this act is sufficient to protect and empower the consumers.	
25	4	A. Mediterranean climatic region B. Australian desert C. Monsoon climatic region D. Savanna	
26	4	Development in the field of health and education – free and universal compulsory education – health sector to global standards – ensure excellent healthcare even with limited resources – global standard in the human development index, despite having a low percapita income – universal public distribution system for poverty alleviation – women empowerment through Kudumbasree – local governance through decentralised planning - literacy	
27	4 4	A) **Mass wasting** Mass wasting is the downward movement of earth materials (rock fragments and soil) under the direct influence of gravity. **Erosion** Sediments formed by various weathering processes and other natural activities are transported from one place to another by agents of erosion such as flowing water, glaciers, wind, and waves. This process is called erosion. **OR** B) **Tsunamis** • Tsunamis are giant waves that can rise several metres high, caused by large underwater earthquakes. Tsunamis can also be triggered by underwater volcanic eruptions and the fall of meteorites into the ocean.	

28	4	**Educational Institutions** • Acquired the knowledge and skills on rights, duties, scientific thinking, critical thinking and culture. • Play an important role in shaping children's understanding of various subjects. • Activities in school such as school parliament, club activities, sports and cultural activities act as a platform in developing democratic and civil sense among the students. Such activities provide enough avenues for the learners to express their opinions and that develops skills in forming public opinion. **Peer Groups** • Debates and discussions among peer group members influencing public opinion formation. • They can influence each other on the policies of the govt various social issues and political parties. • Peer group discussions are helpful in eliciting common opinions, correcting exciting ones and arriving at correct opinions.	
29	4 4	A) Collapse of feudalism –laws of the old regime disappeared – land owned by the church became the property of the middle class - The land under the nobles were confiscated – all kinds of benefits were abolished – The contributions of the French philosophers to the world – Women's participation in achieving rights - unified system of weights and measures - modern nationalism – concepts of the nation – democratic system of governance –sovereignty of the people - influenced later struggles . **OR** B) Despotic regime – divine right of the rulers – Estates general was not summoned – Louis XIV – I am the State – Louis XV – Corruption – extravagance – new taxes imposed – Louis XVI – did not pay much interest to governance - queen's extravagance (Marie Antoinette)	
30	5 5	A) Early struggles involved by Mahatma Gandhi – local struggles – Rise of Gandhiji as a national leader – people familiarise with Gandhiji's method of struggle and his political ideology – non co-operation mass movement – non violent struggle organised by Indian National Congress and khilafat committee - widespread popularity in rural and urban areas – different sections of the people like women, workers, students, tribal people and peasants were participated. **OR** B) Colonies become a source of raw materials and a market for European manufactured goods – European countries established political control over their colonies, which paved the way for imperialism – competition among the imperialist powers – Germany's economic progress alarmed England and	

		France – planning of Berlin – Baghdad railway line – Tensions and hostilities among imperialist powers – extreme nationalism – Pan Slav and Pan German movements – formation of military alliances – Tripple Alliance – Tripple Entente.	
31	5	A) Temperate grasslands • Short summers and long winters • Average winter temperature ranges from 2^0C to 13^0C • Annual rainfall ranges from 25 cm to 60 cm • Different types of grasses are generally found. • Located in both hemisphere at a latitudes between 40^0 and 50^0 • Prairies, Pampas, Veld, Downs **OR** B) a) The changes in atmospheric pressure that we experience are caused by the movement of air. The horizontal movement of air from high-pressure areas to low-pressure areas is called wind. b) Place A has a low-pressure gradient. The pressure difference with nearby areas is relatively low, so the isobars are widely spaced. This indicates that the pressure gradient in A is relatively low. c) At place B, the wind speed is higher. This is because the pressure gradient is high in B, and the pressure difference with nearby areas is higher. Therefore, the isobars are closely spaced, indicating a high-pressure gradient. Since the pressure gradient is high, the wind speed is also high.
